Foreword

“All citizens have equal social dignity and are equal before the law, without distinction of sex, race, language, religion, political opinion, personal and social conditions.

It is the duty of the Republic to remove those obstacles of an economic or social nature which constrain the freedom and equality of citizens, thereby impeding the full development of the human person and the effective participation of all workers in the political, economic and social organization of the country.”

Art.3 Italian Constitution

Serving our citizens remotely has become common practice for our Administration, which celebrates in 2021 its 20th year of activity with a further step towards inclusive digitization by making accessible its services to those who, provided with a CIE (electronic identity card) as a means of identification and authentication, have not activated Fisconline or Entratel.

All the services currently available remotely can be found in this guide in a systematic and methodical disposition: from those via email and certified electronic mail to telephone services including, of course, every means of online dialogue through telematics services with and without registration.

In some cases, we have improved existing solutions or developed new and even leaner ones in order to further simplify the methods of dialogue with our users and to respect the measures taken to contain the spread of the virus.

These developments will remain in place even after this emergency phase, as a way to show how something good and positive can be found even in the darkest times.

INTRODUCTION

There are several ways to deal with services and assistance provided by the Revenue Agency.

You can do it directly:

- **online from the website**
- **by e-mail or certified e-mail (PEC)**
- **from the Agency's mobile app**
- **at the office.**

The preferential channel for the provision of Agency services becomes **telematics** avoiding unnecessary waiting, queues and gatherings.

Since January 13, 2021, the telematics services of the Revenue Agency, usable in the reserved area, are also available to users (natural persons) whose digital identity is authenticated through their Electronic Identity Card (CIE).

If, for any reason, it is not possible to use the telematics channels and cannot receive assistance remotely you can still ask for an appointment at the office, using the telephone, the website or the mobile app.

The web ticket service, available both on the website and on the *App*, allows booking a ticket eliminating queues, choosing the Agency office on the desired day and time with the option of the service needed.

This guide provides useful information on how to receive Agency services, how to book an appointment and what customers have to bring with them to the office.

In addition, this guide gives detailed information for some services which can be requested through different options (online, e-mail or certified e-mail PEC, or in the office).

1. HOW TO REQUEST THE SERVICES OF THE AGENCY

1.1 Online

On the Agency's website, it is possible to use many services directly, without the need for any registration (more details in [chapter3](#)).

For other services, instead, it is necessary to have SPID credentials, the Public Digital Identity System, or a National Service Card (CNS) or Agency credentials to access Fisconline – Tax Account (more details in [section 2.1](#)).

In addition, from January 13, 2021, it is possible to access the authenticated area of the Revenue Agency website, and take advantage of telematics services through the Electronic Identity Card (CIE).

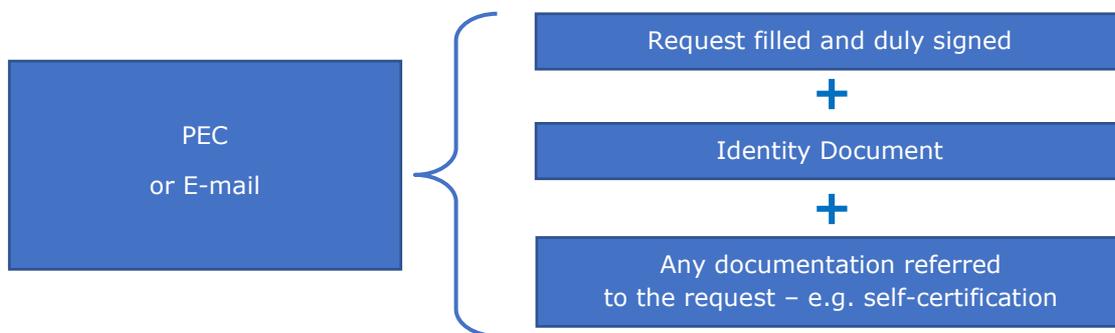

The Electronic Identity Card is the safest and most flexible tool for the protection of citizens' physical and digital identity. It guarantees the identity of the holder in consulting its own personal data and those of taxpayers by proxy.

"Enter with CIE" is the new authentication model provided in the Digital Administration Code to which the Revenue Agency and the Revenue-Collection Agency have agreed. The aim is to make the use of online services more and more extensive and to allow taxpayers to carry out several operations without having to move from their home or office.

1.2 By e-mail or PEC

The taxpayer may submit the request for a service by e-mail or PEC remotely, attaching the necessary documents and indicating all references (e.g., telephone number) for any subsequent contacts.

Companies with PECs should preferably send their requests through this channel (the fastest way to process the request).

1.3 At the office

If you are unable or cannot receive the service online, you can book an appointment at the desired office. In this case, it is advisable to go to the counter bringing the form already filled out and a copy of an identification document.

FOR TAXPAYERS GOING TO THE OFFICE

It is important to present yourself with the original form to submit and a copy of a valid identity document: Identity card, driving licence, passport (for EU citizens), residence permit or passport with visa -if required - (for non-EU citizens).

THE DELEGATION

If you go to the office **on behalf of another person**, when it is possible for the service needed, you must have:

- the proxy
- a copy of your own identification document
- a copy of an identification document of the delegating party.

1.3.a Book an appointment

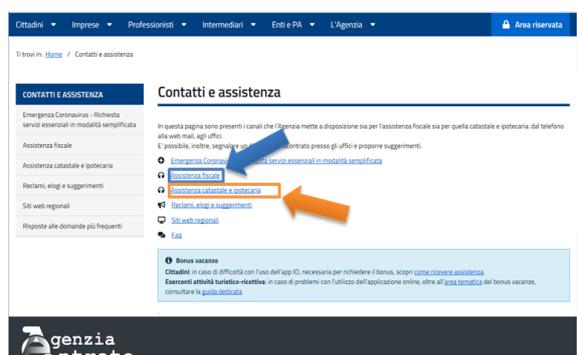

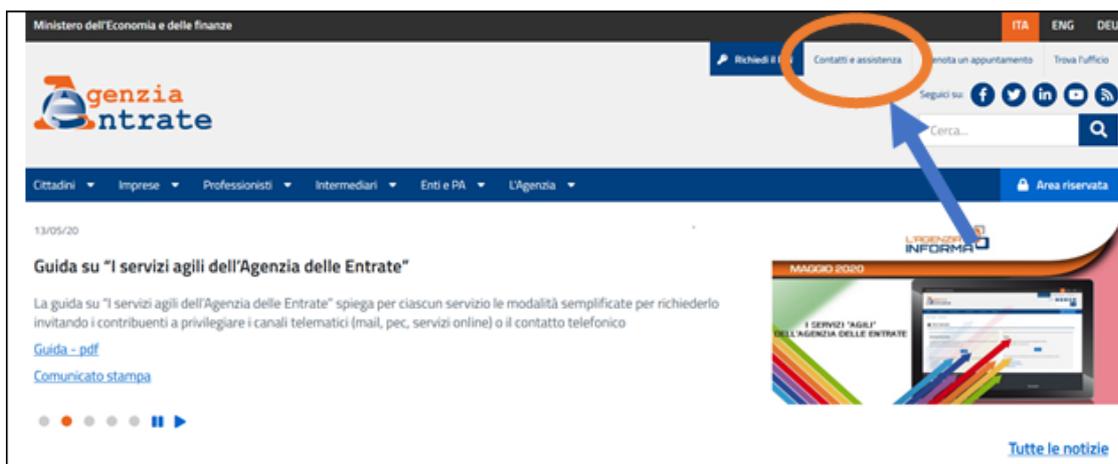

For requests that cannot be processed remotely, it is necessary to book an appointment at the office (for all services that can be provided at the counter):

- **by phone**

You must call the toll-free number **800.90.96.96** or **+39.0696668907** from your mobile phone, choosing option 3. The numbers are active 24 hours a day and allow choosing the office to which you want to go, as well as the desired day and time.

- **online**

From the home page of the Italian Revenue Agency website click on "Contacts and assistance".

On the next page, you can choose an appointment for:

- **tax assistance**
- **cadastral and mortgage assistance.**

Following the guided steps, it is possible to book an appointment with an official, choose the office and the service you wish to request, the day and time among the ones available.

At the end of the booking, you will see the receipt and the booking number.

- with "AgenziaEntrate" mobile app

The application can be downloaded from IOS, Google and Microsoft stores. To book an appointment you do not need to register or have authenticated access credentials (Pin or SPID). All you need is an e-mail address and a telephone number.

The steps to follow

1. Go to "Appointments and tickets".
2. Choose "Book an appointment" and book for the desired day.
3. Enter the first letters of the service to be booked, choosing from the many services offered: for example, tax code, health-card, VAT number, telematics services, pre-filled tax return, registration of rental contracts, communication of irregularities of income tax return.
4. Insert your data: e-mail address, phone/mobile number, tax code.
5. Accept the "declaration of the service use only in a personal statement" and go to "Next".
6. Find the office closest to your home on the map; alternatively, you can also book an appointment in a different office. These services, in fact, can be provided by any territorial office of the Italian Revenue Agency.
7. Choose your preferred day and time from those proposed.
8. Check the summary data on the App screen and go to "Book".
9. Display the appointment booking number.

With "**Take a ticket for today**" it is possible, instead, to receive a **ticket to use in the same day** going to the office directly at the scheduled time. The services that can be offered, for example, are:

- Tax code, Health Insurance Card and VAT number
- Notifications of irregularities and tax statement
- Request of authentication for telematics services
- Document delivery
- Registration of deeds and lease agreements.

- with the "web ticket"

With the "web ticket" service, it is possible to book, without going to the office and without queuing. This service avoids gatherings at an Agency office.

The ticket can be used on the same day for "fast" services: tax code, health card and VAT number, telematics availability, document delivery, request of certificates.

With the "web ticket", you can go to the counter, therefore, directly at the time indicated on the "ticket".
